

DAILY EVENING BULLETIN.

VOL. VI--NO. 91.

MAYSVILLE, KY., MONDAY, MARCH 7, 1887.

PRICE ONE CENT.

WOMEN NEEDING renewed strength, or who suffer from irregularities in their sex, should try **BROWN'S IRON BITTERS** THE BEST TONIC.

This medicine combines Iron with pure vegetable
tonics, and is invaluable for Diseases peculiar to
Women, and all who lead sedentary lives. It En-
riches and Purifies the Blood, Stimulates the
Appetite, Strengthens the Muscles and
Nerves—in fact, thoroughly invigorates.
Clears the complexion, and makes the skin smooth.
It does not blacken the teeth, cause headache, or
produce constipation—all other iron medicines do.
Mrs. ELIZABETH BAXTER, 74 Fawcett Ave., Milwau-
kee, Wis., says under date of Dec. 26th, 1884:
"I have used Brown's Iron Bitters, and it has been
more than a doctor to me, having cured me of the
weakness ladies have in life. Also cured me of Liver
Complaint, and now my complexion is clear and
good. Has also been beneficial to my children."
Mrs. LOUISA C. BRADON, East Lockport, N. Y.,
says: "I have suffered untold misery from Female
Complaints, and could obtain relief from nothing
except Brown's Iron Bitters."
Genuine has above Trade Mark and crossed red line
on wrapper. Take no other. Made only by
BROWN CHEMICAL CO., BALTIMORE, MD.

YOU

ARE

INVITED

To call at the Mammoth Furniture Store of
HENRY ORT, to inspect his large
stock of

FURNITURE

in the newest styles, which will be offered at
prices uniformly low on every
article.

CHAMBER and PARLOR SUITS.

Do You Want Anything

—In the way of—

CHAIRS,

Lounges, Folding Beds, Sideboards, Book
Cases, Wardrobes, or any other article in the
line of Household Furniture? If so, it will
be economy for you to call on

HENRY ORT,

Second St., - - Maysville.

JOHN WHEELER,

—Dealer in—

Oysters, Fish, Game

Foreign and Domestic Fruits, Celery, Canned
Goods, &c. Norfolk Oysters received every
twenty-four hours.

COOK & HAFLEY,

House, Sign and Ornamental

PAINTERS.

Wall Papering and Ceiling Decorating a
specialty. Fourth street, between Limestone
and Market, opposite public school.

MISS ANNA FRAZER,

NOVELTY STORE.

—Dealer in—

DRY GOODS and NOTIONS.

I have always on hand a full supply of
School Books, and have just received a large
assortment of new millinery goods.

OPUM

and Whiskey Hab-
its cured at home with-
out pain. Book of par-
ticulars sent FREE.

Atlanta, Ga. Office
65½ Whitehall Street.

APPROPRIATION BILLS

THEY AMOUNT TO FOUR MILLIONS
LESS THAN LAST YEAR.

Many Millions Would Have Been Added
Had Congress Lasted a Few Days
Longer—Appropriations That Did Not
Pass—Presidential Pardons—News.

WASHINGTON, March 7.—The appropri-
ations last year footed up \$264,000. This year
they will not go beyond \$260,000,000, but this
is owing principally to the failure of the ap-
propriations bills and defeat of one or two
measures calling for very large amounts of
money. The river and harbor bill of \$10,-
000,000 received a pocket veto. The president
tried to examine the bill Thursday evening,
but gave it up after three hours' work. He
withheld his signature because it did not
reach him in time. The deficiency bill ab-
sented. This appropriation over \$15,000,000, and
the president was much interested in the pas-
sage of this measure. In it were the appropria-
tions for carrying on the government
suits against the Bell Telephone company, and
for the payment of \$25,000 advanced by the
department of justice to the special counsel
employed last year.

This measure also contained \$2,000,000 for
the Central Pacific Railroad company upon a
claim for transportation. This part of the
bill was cut out before the conference com-
mittee reached an agreement. The house
conferees peremptorily refused to give this
\$2,000,000 to this railroad as long as it was so
deeply indebted to the government. This de-
ficiency bill also comprehended a number of
important claims, such as money for the in-
crease of the water supply of Washington,
extra clerk hire in the various branches of
the government, and this measure will not
necessitate an extra session. The loss of this
bill will work great personal hardships.

The deficiency bill would have become a
law if it could have been engrossed in time.
A dispatch from Speaker Carlisle about the
condition of this bill brought the president
to the capitol at 11.50. He was accompanied
by his cabinet. He signed the district bill
while the ink was still wet on it; but the de-
ficiency bill could not be reached, and the
president would not permit the hands of the
clock to be set back so as to bring it within
the technical limit.

The fortification bill failed because the
house and senate could not agree upon the
amount of money which should be expended
upon fortifications. Last year the house ap-
propriated \$600,000. The senate added
\$6,000,000, and the bill failed. This year
the senate made a bill aggregating \$41,000,000.
The house agreed to \$17,000,000, a magnifi-
cent sum for the beginning of any system of
coast defenses, but the senate insisted upon
its \$41,000,000, apparently for no other pur-
pose, than of throwing the responsibility on
the house.

The only item of coast defense is in the
naval bill, which provides for an increase of
over \$10,000,000 beyond the bill of last year.
The extra money in the naval bill is for the
building of steel cruisers. The appropriation
bills are not yet printed with the changes
made in them in the last two or three days,
but an estimate of them have been obtained
from the clerk of the house appropriation
committee. The legislative bill appropriated
\$27,000,000; army bill, \$24,000,000; diploma-
tic and consular, \$1,500,000; agricultural bill,
\$1,000,000; pension bill, \$76,550,000; Mexican
pension bill, \$6,800,000; miscellaneous, \$5,-
000,000; military academy, \$4,000,000; Dis-
trict of Columbia, \$4,100,000; postoffice bill,
\$57,000,000. The steamship mail subsidy was
knocked out of this bill, the senate receding
at the last moment.

Through the failure of the dependent pen-
sion, river and harbor, fortifications and de-
ficiency bills, this congress goes out with a
very good showing so far as the footings of
the appropriations are concerned.

Killed By a Pocket Veto.

WASHINGTON, March 7.—One of the meas-
ures killed by the president by a pocket
veto was the bill appropriating \$100,000 to
A. H. Emery, civil engineer of New York, as
compensation for money expended in per-
fecting a machine for testing iron and steel.
Mr. Emery had a contract with the govern-
ment for building the machine, but was re-
quired by the war department to make so
many changes that instead of making a profit
upon his work he experienced loss. Mr. Em-
ery, according to the reports of the chief of
ordnance, devoted large sums of money in
the perfecting of this machine, simply in the
interest of the government. This machine is
now the property of the government, and
represents, it is claimed, a personal loss to
Mr. Emery of \$200,000. It is said to be the
most perfect machine of its kind in the world
and of enormous value to the government.
The senate appropriated \$200,000 for Mr.
Emery, and the house gave him \$100,000.
This compensation was accepted, and the bill
appropriating \$100,000 was passed. The
president's failure to sign this bill will un-
doubtedly throw this patriotic engineer into
bankruptcy.

New Fast Mail Service.

WASHINGTON, March 7.—The postmaster
general has made arrangements for a daily
fast mail between the east and the southwest.
By the new arrangement a special train of
postal cars on the Pennsylvania line will
leave New York at 8 p. m., and will reach St.
Louis at 2:45 a. m., and the mail to be trans-
ferred at once to a special train of postal cars
on the Missouri Pacific, which will leave St.
Louis at 3 a. m. and arrive at Kansas City at
11 in the morning. It is expected the out-
going morning trains from Kansas City to
Colorado, Mexico, New Mexico, Arizona,
southern California, southern Kansas, Ar-
kansas, Indian Territory, Texas and the
southwest generally, and up the Missouri to
Omaha, will delay departure and take the
mail on the arrival of the fast train at Kan-
sas City and that eastern mails will be deliv-
ered at prominent southwestern points eight
or ten hours earlier than heretofore.

Presidential Pardons.

WASHINGTON, March 7.—The president to-
day pardoned Joseph Evans, who is serving
a term in the Utah penitentiary for poly-
gamy. The president is informed that the
man is seventy years old; that his legal wife
seeks his release, but that he refuses to re-
nounce polygamy as a condition of his release.
The president says he is unwilling that the
hardship of such a case should make the

government appear vindictive in the attempt
to extirpate the practice of polygamy.

The president has pardoned N. H. Camp,
convicted of embezzlement from the govern-
ment while assayer at Boise City, Idaho, on
the ground that he has doubts as to his guilt,
and is convinced of his present good charac-
ter.

The president has also pardoned Oscar L.
Baldwin, of New Jersey. Baldwin has com-
pleted his sentence for misapplication of bank
funds, and the pardon simply restores him to
citizenship.

No Extra Session.

WASHINGTON, March 7.—It is said at the
White House that there is no probability of
a special session of the senate being called
by the president for the purpose of acting on
nominations or for any other purpose. The
interstate commerce commission and a suc-
cessor to Secretary Manning will probably be
appointed next week or the week following.

Train Ditched by a Broken Rail.

PERHAM, Minn., March 7.—An east-bound
passenger train from Portland to St. Paul
was ditched three miles west of New York
Mills yesterday morning by a broken rail,
seven coaches being derailed and thrown
down an embankment. The two engines, one
car loaded with bullion, one mail and one
baggage car kept the track, the others being
badly wrecked. About sixty persons were
on board but none were seriously injured.
H. Wilkie, of Glasgow, Scotland, had his col-
lar-bone fractured. H. H. Plough, of Per-
ham, had a shoulder-bone fractured. Several
ladies were badly cut by broken glass in
getting through the windows after the cars
had been ditched. Porters, brakemen and
several passengers were somewhat cut.

Looking for a Gold Mine.

FRANKLIN, Mass., March 7.—Mr. Randolph
Somers goes next week to New York to
take command of a steamer of the Interna-
tional Mexican Steamship company. He
will sail for Yucatan where the company own
several islands believed to be rich in gold de-
posits. The expedition commanded by Capt.
Somers will be provided with the necessary
men and means thoroughly to examine the
islands and test their resources. If these
prove as expected, facilities for working them
will be established and if otherwise means
will be taken to develop them in some other
direction. Mr. Somers has had experience
in the United States and Danish navies and
in Cuban expeditions.

Formed an Ice Dam For Smuggling.

OTTAWA, Mich., March 7.—Investigation
into the cause of the recent disastrous floods
at Morrisburg, by which \$75,000 damage was
done, reveals the fact that the ice which
caused the water to back up was cut and
floated by smugglers into the narrow chan-
nel of the river to form an ice bridge. Cor-
respondence is now going on between the
United States and Canadian governments re-
garding the matter and several arrests are
expected to follow. The guilty parties can
be punished in New York state under a law
which forbids the formation of dams of this
kind.

Southern Indian Prison.

INDIANAPOLIS, March 7.—The report of the
committee on the Southern prison has been
submitted to the house. It sustains the
charges of bad financial management and
cruelty to convicts. The shortage in funds
is estimated at \$75,000. Warden Howard is
severely censured. The report expresses the
opinion that at least one convict was killed
in punishment and his body burned in the
furnace, and two others are regarded as sus-
picious deaths. It is recommended that all
the prison officials be removed.

Telephone Cases in Canada.

BOSTON, March 7.—An Ottawa special to
the Herald says: "The decision of the com-
missioner of patents annulling the patent
covering the Blake transmitter does not af-
fect the fundamental principles involved in
the carbon transmitter, which are covered
by three Edison patents. Until all three of
the Edison patents are voided the Bell com-
pany's monopoly in Canada will remain un-
changed. The Edison cases are now being
heard before the commissioners."

Recorder of Deeds Trotter.

BOSTON, March 7.—Lieut. Charles L.
Mitchell, of Boston, has received a letter from
Lieut. J. M. Trotter, recorder of deeds,
Washington, in which he writes: "God
bless you all for being true to the race in this
great crisis. I care not for myself except to
do my duty. An unseen but mighty providence
is using me for some purpose. Please
ask the Boston papers to express my thanks
generally for all the kindness of friends."

Rather Romantic.

MANCHESTER, N. H., March 7.—Thirty-
nine years ago James H. McDonald left his
home in Sydney, near Cape Breton, and was
not again heard of by his relatives until the
latter learned from a newspaper that in the
last election he had been chosen lieutenant
governor of Michigan. He has been written
to and replied, promising to visit his brother
Alexander in this city after the adjournment
of the Michigan legislature.

Five Thousand Dollars for a Vote.

INDIANAPOLIS, March 7.—Rev. Joseph P.
Stubblefield, Republican member of the leg-
islature, testified before the bribery investi-
gation committee that he was offered \$5,000
by Tim Coy if he would vote for Turpie for
senator. Others testified that a like propo-
sition had been made to Robinson, a Green-
back member, who as a matter of fact voted
with the Democrats, thus enabling Turpie to
be elected.

Trade Dollar Holdings in New York.

READING, Pa., March 7.—The merchants
of this city are preparing to forward to the
treasury of the United States at New York
the trade dollars they took in the
course of business. One man has \$20,000 on
hand, and others from \$500 to \$3,000. The
banks of this city carry \$60,000 in trade dol-
lars as special deposits, and it is estimated
that the holding in this city amounts to
\$350,000.

Crop Prospects in Texas.

ABILENE, Tex., March 7.—Farmers in this
county just now are in a very eager state of
mind. They say if it rains in two weeks they
will make the greatest crop of wheat ever
grown in the west, and will have assurance
also of a great crop of oats. On the other
hand, if it doesn't rain in two weeks, they
say they will make very little wheat and no oats
at all. At present there is no indication of
rain.

CONDITION OF BUSINESS.

R. G. DUN'S WEEKLY REVIEW OF THE
STATE OF TRADE.

The Adjournment of Congress Removes
the Uncertainty Which Has Heretofore
Existed of a Disturbance of Values—In-
crease in Shipments—Failures.

NEW YORK, March 7.—R. G. Dun's weekly
review of trade says: Congress has finished
its work so that an important cause of uncer-
tainty and disturbance of values is out of the
way. The relief felt has been measurably
anticipated in the markets, which generally
score higher prices than a week ago. In some
branches of trade greater activity is clearly
seen, but not in all cases of a healthy kind.
Financial disturbances seem farther off how-
ever than a week ago. Foreign exchange is
distinctly less favorable to export; the course
of the stock markets indicates for the time
foreign buying rather than selling and op-
erations of the treasury do not threaten
monetary disturbance for some time to come.

Clear increase in west bound freight ship-
ments of goods and greater activity in some
branches of the dry goods trade may be
traced to the interstate commerce bill, which
will go into operation April 1, and will affect
special rates and contracts. The more fa-
vorable dissatisfaction obtained after much
difficulty, for cotton goods shipped westward
will be affected, for instance, merchants are
stimulated to special activity prior to April
1, on that account, but it can hardly be re-
garded as a genuine improvement. Trunk
lines have adopted new classes and rates,
which are in effect a substantial advance, so
that the first result of the measure is some
increase in charge of transportation.

The real estate speculation rages especially
in some southern quarters, as if a corner lot
were a more desirable possession than Alad-
din's lamp. All experience warrants apprehen-
sion that severe depression and many
losses will follow where such wild trading
has inflated the cost of all industrial and
commercial operations, and announcements
of the formation of new stock companies by
the score every week, with capitals amount-
ing to millions, do not necessarily presage
genuine development of resources or lasting
increase in production.

Some improvement is noted in woolen
trade, more here than at Boston, but orders
are still smaller than last year, so that fine
and territorial wools are lower, though
worsted wools are scarce and strong. It is
significant that shoddy also rises in price,
while wool weakens, the demand being
largely for cheaper grades of cloth. Cottons
have been more active and middling uplands
rises to nine and five-eighths cents, with more
foreign buying. Boots and shoes move more
freely, shipments now exceeding those of
last year, but dullness is felt in the leather
trade. The pause in the iron business is now
noticed by all trade journals, but prices yield
only for speculative or largely important
articles; in spite of slack demand for raw
iron and important products, there is a con-
fident tone. The Western association at its
Pittsburg meeting, however, declined to ad-
vance card rates.

The wheat speculation takes the form of a
struggle between a powerful combination
here, at Cincinnati and California, which is
said to hold thirty million bushels, and for-
eigners who are selling. Prices are a shade
lower than last week.

Pork speculation, after passing \$15 per
barrel, has been killed by the Chicago board,
which fixes that price as a basis for margin
deals, and thus saves legitimate traders from
the clutch of a combination.

A meeting here to prevent cheese adulter-
ation failed to agree because it was proposed
to bar out the use of any coloring.

Laboring difficulties look less threatening.
Arbitration has been proposed for Fall River
spinners, and accepted for Connellsville coke
workers. Railroads have been doing well,
and look more hopeful on the interstate com-
merce bill. Earnings in January were 15 1-2
per cent. larger than last year, and coal ton-
nage now shows an increase of 10 1-2 per
cent. Statistics of fire underwriting for
1886, show increase of about 4 per cent. over
the previous year. Marvelous growth in the
northwest is evidenced by records of St.
Mary's canal tonnage. The annual state-
ment of the Pennsylvania railroad shows an
increase of 4 per cent. in ton mileage and 12
per cent. in freight profits; but the car move-
ment at Indianapolis last week was a shade
below that of last year. The treasury is
helped by remarkably small silver receipts
here, only 8 1/2 per cent. of the aggregate for
the past week, and has taken in about \$1,-
600,000 gold against about \$500,000 silver and
currency paid out during the week.

Business failures during the past seven days:
number for the United States 203; for Can-
ada, 26; total 229, compared with 209 last
week.

A Big Syndicate.

CHATTANOOGA, Tenn., March 7.—The
Daily Times publishes statements to the ef-
fect that Senator Joseph Brown, of Georgia,
has sold his two blast furnaces, one of which
is in Chattanooga and the other at Rising
Fawn, twenty miles distant, and the Dade
mines, near this city, to a syndicate of
Georgia's capitalists, for \$2,000,000. The
syndicate is known as the Barton, Coal, Iron
and Land company, which recently pur-
chased 50,000 acres of land near Cartersville,
Ga. Among the stockholders of the company
are Capt. W. G. Rovel, late president of the
Central railway; Evan P. Howell, of the At-
lanta Constitution, and the humans, of New
York and Atlanta.

He Speculated in Stocks.

GREENFIELD, Mass., March 7.—The select-
men who have been overhauling the books of
Frank W. Foster, town clerk and treasurer,
have reported that there was a deficiency of
\$14,000. The books were not falsified and no
endeavor was made to cover up the defalc-
ation. Foster was arrested and admitted his
guilt. The money had been lost in stock
speculation it is believed. In addition to this
defalcation it is understood Foster has \$5,000
worth of paper endorsed by his father. Fos-
ter was released in \$10,000 for a later hear-
ing.

WASHINGTON, March 7.—Col. Robert N.
Scott, in charge of the publication of the of-
ficial records of the rebellion, and one of
the best known army officers at Washington,
is dead.

A SECOND FAILURE.

Another Attempt to Burn the Pennsylva-
nia Railroad at Jersey City.

NEW YORK, March 7.—Evidence of an-
other attempt to burn the Jersey City ferry
houses and depot of the Pennsylvania rail-
road were discovered this morning. A
piece of cotton wadding about eighteen in-
ches square and about two inches thick, sat-
urated with a chemical mixture, was found
on the outside of the gentleman's toilet room
at the northern end of the ferry house. The
cotton was hung upon a piece of iron, near
to the woodwork. Immediately beneath it a
hole had been cut about four inches in di-
ameter sufficiently large to admit a hand
from the inside to reach it. The edges of the
cotton were signed and burned.

Thomas Hennessy, the prisoner suspected
of secreting the infernal machines in the
depot and on the ferry boat Chicago, was
arraigned this morning in the police court.
He protested his innocence and was re-
manded for examination until next Tuesday
morning.

A Gigantic Swindler.

NEW YORK, March 7.—George F. Parker,
president and general manager of the British
American claim agency, whose offices have
been in the Stewart building, Bowery and
Chamber street, Edwin S. Witherell, secre-
tary and treasurer, and George W. Gibbins,
counselor, were arrested by central office
detectives to-day, on bench warrants issued
by Recorder Smyth, on a charge of obtain-
ing money by false pretences. The prisoners
have been for several months carrying on an
extensive business, by claiming to investi-
gate cases where money has been left to next
of kin in Europe. The firm employed be-
tween twenty and thirty clerks, and it is al-
leged that their receipts often amounted to
\$800 per day. The police say that it was one
of the most colossal swindles ever started in
this country, thousands of persons having
been victimized. Parker, who is said to be
an ex-convict, resides in Elizabeth, N. J.
The other two prisoners live in this city.
They were all locked up at police headquar-
ters. The information which led to the ar-
rests was furnished by the authorities of
Scotland Yard, London.

A Great Invention.

CHICAGO, March 7.—Mr. E. W. Jenks, of
the Chicago Herald, has applied for a patent
for heating railroad cars with hot air. He
claims that his invention will perfectly heat
any number of cars up to twenty, and that
it is simple in construction, easily managed
and impossible to get out of order. Superin-
tendent Givin, of the Chicago & Rock Island
railway, and other railroad men have already
spoken warmly in approval of the principal
involved in Mr. Jenks' invention, which is,
briefly, the purification and distribution of
air heated in a separate car, purposely con-
structed and conveyed to the coaches without
risk to the passengers. Another notable fea-
ture of the invention is that it may be undone
during the summer for cooling; the cars with
purified air.

Heating Cars From the Engine.

ST. ALBANS, Vt., March 7.—Six cars of
the Central Vermont road are now being
fitted for heating by steam from the engine.
R. G. Chase, representing the Williams' sys-
tem of heating, is here in charge of the
work, and it is expected that the cars will all
be fitted, and an engine supplied with vacuum
pumps to make trial by the 14th inst. The
Central Vermont management is affording
them every facility to get at the practical
value of this system as soon as possible. Mr.
Chase claims that his system can heat any
number of cars. This will be the first train
to which the Williams' system has been ap-
plied.

Presidential Preferences.

NEW YORK, March 7.—The World has sev-
eral columns of interviews with Republican,
Democratic and Labor leaders as to their
preferences for president in 1888. The Rep-
ublicans interviewed are almost solid for
Blaine. The Democratic leaders seem about
equally divided between Cleveland and Hill.
The Labor leaders, aside from their first
preferences for a Labor candidate, show a
large majority for Hill as compared with any
other Democrat, and for Blaine as compared
with any other Republican.

A Doomed Man.

BELVIDERE, N. J., March 7.—The action of
the New Jersey court of pardons in post-
poning its decision on the application of Janitor
Titus has had a very depressing effect upon
the condemned man. His mental suffering
is apparent, and he sleeps but little. The
sheriff will proceed with the preparations for
the execution, as it is believed that the court
of pardons will leave him to his doom.

The Broken Cable.

HALIFAX, N. S., March 7.—The steamer
Ulanda, which sailed two weeks ago to re-
pair the French Atlantic cable, broken near
St. Pierre, has returned without accomplish-
ing her mission. The break was found close
to the shore, in such shoal water that the
steamer could not enter.

"Green Goods" Swindlers.

NEW YORK, March 7.—Samuel Hayes and
Adolph Saunders, the "green goods" swin-
dlers, arrested by postoffice inspectors, were
arraigned to-day. Saunders was discharged
for lack of evidence, and Hayes was held in
\$3,000 bail for trial.

Woman Suffrage in Rhode Island.

PROVIDENCE, R. I., March 7.—A resolution
to submit to the people a constitutional
amendment providing for woman suffrage
was adopted in concurrence by the house to-
day by a vote of 52 to 7.

Deadlock Broken.

NEWPORT, R. I., March 7.—The two
months' deadlock in the city council has been
broken by the unanimous choice of Nathan
Barker as president for the ensuing year.

Death of Charles J. Peterson.

PHILADELPHIA, March 7.—Mr. Charles J.
Peterson, author, publisher and proprietor
of Peterson's Ladies National Magazine, died
last night, aged sixty-eight.

A Catholic Priest in the French Army.

CHICAGO, March 7.—Rev. P. M. Donohue,
a young Catholic priest of Arcola, has just
been created a lieutenant in the French army
by Gen. Boulanger.

The failure of the deficiency bill threatens
to cripple the postal service, the United
States courts and to leave unsettled a num-
ber of soldiers' claims.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

MONDAY EVENING, MARCH 7, 1887.

A CORRESPONDENT writes that \$150,000 have been taken out of Mercer County the past year and invested in distant places.

The "fire fiend" seems bent on wiping out Nicholasville. Since the 27th of last December, \$100,000 worth of property is said to have been destroyed.

KENTUCKY'S distinguished Senator, James B. Beck, will have the sympathy of all in the loss of his wife, whose death occurred last evening at Washington City, after a brief illness.

THE Fleming Republicans want Col. Billie O. Bradley for Governor, and have instructed for him. It seems the Republicans of the State have gulped down at one swallow Bradley's little pill of "an unanimous nomination will give the party great strength." Well, his party is in need of great strength, both in Kentucky and elsewhere.

A PROMINENT citizen says there are animals beaten about unmercifully in this city almost every day, and that horses are often seen in carts, wagons, drays and other vehicles when they are in no condition for such work. He is ready to give twenty-five dollars towards the organization of a Society for the Prevention of Cruelty to Animals so that the cruel treatment may be broken up. The move is a good one and should be carried out. The S. P. C. A. has done good work elsewhere. A party who is cruel to the dumb creatures under his control deserves the severest punishment the law provides.

Of Interest to Knights of Labor.

A recent cable from Rome says: "Cardinal Gibbon has placed before the Vatican a formal statement as to the nature of Knights of Labor organization of America, and the attitude the church should adopt toward it. The Cardinal says he considers any condemnation of the Knights to be not only useless, but highly inopportune, and might alienate the sympathy of the American laboring classes from the church, and hamper the mission of the church to the laboring poor. The organization is not a secret society in the sense condemned by the church, and consequently exempt from canonical censure."

"Cardinal Gibbon further says he considers the organization of the Knights of Labor in the United States not only harmless, but possibly will be beneficial in assisting in the eventual settlement of the great question of the proper relations between labor and capital. He treats the alarmist theories respecting the Knights of Labor as puerile, and says nearly one-third of the men belonging to the organization are Roman Catholics."

Fine Opportunity for Paying Investment.

I have the option of purchasing a very fine body of land, lying on the Sonora river, in the valley of Sonora, Mexico, near the Southern boundary of the United States. One of the tracts contains about 40,000 acres, the other probably 100,000, acres, the title to both being perfect. The land borders upon the headwaters of Sonora river, a distance of nine or ten miles, has a never failing supply of water, is in a most delightful, healthy climate, and is adjacent to a Mexican town. It is admirably adapted to the purpose of cattle raising and agriculture, the soil being rich and productive. By American enterprise, which is rapidly going into that section, cattle raising is coming into prominence. The range for cattle on this land is very large, extending from mountain to mountain, a distance of probably twenty miles. The climate is so mild and grass so abundant that cattle graze the year round, with no attending expense of feeding or sheltering them at any time. Of the 40,000 acre tract, about 160 acres are under fence and has produced 40 bushels of wheat per acre, though only plowed with a sharpened block of wood. The larger tract is of itself a principality, and has about 500 acres under fence, with three houses and good corrals upon it, and has about one hundred and fifty head of cattle that go with it; and all the land and cattle are by law exempt from taxation. It will not require a long time for these cattle to grow into a large and valuable herd, and the land, in my opinion, will increase in value, as it is in the midst of an exceedingly rich, silver and gold mining region which is attracting many Americans, as well as English capitalists, who are investing there. Two railroads are running out of the United States into Northern Mexico, at a distance of about 80 miles on either side of the Sonora Valley, and I believe that in the very near future another railroad will be built down said valley over or near this land. I have been upon this land myself, and interviewed the owner of one of the tracts as to a sale of it.

For ten cents per acre, I can purchase the land, which will pay for the land and all expense connected with the transfer of title, and stock it with cattle. I am desirous of forming a company to take hold of it as soon as possible. At the price above mentioned, one hundred dollars will obtain an interest equal to one thousand acres, besides an interest in the cattle and products of the land. I will be pleased to furnish all information.

GEO. W. SULSER, Court street.

Why He Prefers Mules to Horses.

A well known manufacturer of this city—it isn't necessary to give his name—finds it necessary to employ a double team to do his hauling. For several years he kept two horses, and while they did their work well he suddenly concluded to dispose of them and buy a pair of mules instead. He says that after the horses had done their day's or week's work he was continually annoyed by some of his friends or employees asking for the use of the horses to take pleasure drives. Not caring to offend them he frequently acceded to their requests, while all the time his better judgment told him that it was rough on the horses, which by their honest work were entitled to their just rest. This thing went on for a while, and our friend was pondering by day and by night how he could bring about a change. It occurred to him one day that mules were not very popular for pleasure driving purposes, but that they answered every other purpose of horses—in fact, were in several respects preferable for his own use. So he concluded to sell his horses and get a mule team. His plan worked admirably, and the other day he informed us that since he got the mules he hasn't been asked once for their use by his friends or employees.—Allentown (Pa.) Register.

Kicked by the Cow.

I turned the cows out, and as old Bess was a little slow in going I just caught her by the tail and gave her a switch with it to hurry her up a little. I've been feeding old Bess off and on for five years, and I thought that she honored me and respected me, but suddenly, in the twinkling of an eye and with malice aforethought, she raised her hind leg and let fly at me with all her might. She hit me on the shinbone, and you might have heard the collision for fifty yards. It hurt so bad I let go her tail prematurely and hollered. I was a cowardly act of hers, but nevertheless I shall ever hereafter let those cows' tails alone. I thought from the report that the bone was broken, and I took on powerful and let Carl help me all the way to the house, but when I examined I found the bone all right and only the epidemic cuticle abraded. I've lost confidence in cows. They have no gratitude and no emotions of an exalted character. They are not fit for pets. A horse belongs to the nobility, but a cow is a scrub. She has about as much affection as a mule. She is a machine to manufacture milk, and that is all.

Nevertheless, I never like to sell my cattle to the butcher. I never kill one for my own use, and I never want to eat a beefsteak that comes from one of my own raising.—Bill Arp in Atlanta Constitution.

Where Gambetta Died.

Gambetta's house, at Ville d'Avray, which lately has been visited by so many devoted republicans on the anniversary of his death, is still a shabby, mean little place, though now almost a public monument, and owning its own special garden. It is as bare inside as outside. In the hall are a chair and a table, where the visitors write their names on a sheet of paper. A poor staircase leads to the room where Gambetta died, which has been kept unchanged ever since. Two tables, a chest of drawers and a bed form all the furniture, but the walls are hidden by wreaths, crowns and memorial marble tablets, which have overflowed on to the staircase outside. Cards and bouquets cover the tables, and flowers are showered on the bed.—Home Journal.

There's No Limit to It.

To what length will the Russian censorship of the press go next? In a novel recently submitted to the censor, the author, in describing the tent of one of the grand dukes during the war with Turkey, mentioned as one of its ornaments "the portrait of a certain actress." This phrase was altered in the proof sheet to "a large map of the theater of war," and on the author objecting that his description was "historical," he was coolly told that "in Russia nothing is historical except what appears in the official journals."—Exchange.

Yesterday has a great place which the king occupies only six days in the year. It is built upon piles, and has cost, all told, \$5,000,000. This palace the king shows to visitors for a consideration. Pay two cents and you are taken through by a guide in livery.—Philadelphia Press.

City Items.

Try Langdon's City Butter Crackers. Ask your grocer for Foerster's City Butter Crackers. They are the best.

A full supply of school books always on hand. Give us a call.

J. C. PECOR & CO.

Our display of satteens is not equaled in the city. Prices the lowest.

PAUL HOEFELICH & BRO.

You will find a complete assortment of artist's materials just received direct from eastern importers at G. W. Blatterman & Co's.

You are invited to see our display of carpets, rugs, curtains, &c. A full line at bottom prices.

PAUL HOEFELICH & BRO.

Any orders for insurance for Joseph F. Broderick, left at Schroeder's saddlery, one door East of opera house, will receive prompt attention. n25dtf

A RELIABLE DRUG STORE.—Riffe & Henderson have on hand a full line of fresh drugs, pure wines and liquors for medicinal purposes. Toilet articles and stationery of every description at low prices. We have on sale the latest novelties in valentines, including the newest and most artistic designs. Prescriptions a specialty. RIFFE & HENDERSON.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at the drug stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

The Infant's Inheritance.

It is no new assertion this, that we are the result of our inherited virtues and sins, plus our circumstances. We cannot stand alone, we cannot affect to ignore those from whom we have derived our origin, since they have placed upon our brow the ineffaceable seal of their own characters. Take the new born babe, lying so helpless, apparently so unconscious, in its mother's arms. Surely its mind is blank and unstained; surely upon it its parents may write whatsoever they will. How mistaken the supposition! Behind the closed lids burn the fires of untold generations, weaknesses and strength never before suspected, lying dormant for a generation perhaps, are to find their full development in this mite of humanity.

Fifty years ago a sweet faced woman had strange, fleeting visions of beauty; they flitted across the horizon of her mental conception and were gone. There was within her neither power of concentration nor of execution. Now, fifty years after, within this brain, yet lying fallow, the visions are stored, and in time those little fingers beating the air in impotent anger shall unfold to the world beauties hitherto seen only in dreams. His will be the power of expression, but the first dawnings of his keen perception of the beautiful and of his longings after its embodiment had their uprisings in another soul, and were transmitted to him, combining there with elements transmitted from other sources, until that combination was reached which gave to him the power to concentrate these images and to express them.—Julia A. Fisch in The Current.

Taking Dispatches by Typewriter.

"The system of taking dispatches by the typewriter yesterday," said an old telegrapher yesterday, "is proving a great success. By the new process the capacity of a wire is increased 25 per cent., thus enabling the company to perform greater feats of telegraphing than ever before. It takes some time for the operator to learn how to manipulate the machine with sufficient speed to keep pace with a good 'sender,' but when he once masters the thing he can perform 25 per cent. more work than he can with pen or stylus, and perform it, too, with far less exertion and mental strain. So expert have some of the operators become that a great deal of press matter is sent in abbreviated form for no other reason than that the sender cannot 'whoop' the stuff through fast enough by the old process to keep the receiver at his knitting. There isn't a sender living who can 'put it up the back' of the expert typewriter artist."—Chicago Herald.

Quite Miraculous, Indeed.

"That prescription you gave me last week, doctor," said Crocus, "is a medical miracle." "I know it, sir," said the doctor, proudly, "I've been using it for ten years and never killed a patient yet." And afterward he thinks that somehow this wasn't exactly what he intended to say.—Burdette.

A Wife's Consolation.

Disheartened young clergyman to his wife, on returning from service—That was the worst sermon I ever preached. I don't know what I shall do. "Oh, no, dear," replied his wife, tenderly, "I have heard you preach worse than that many a time."—Chicago Living Church.

Hung by a Mob.

SAN MARCOS, Tex., March 7.—Tuesday last, Trin Blocker, colored, attempted a criminal assault upon Mrs. Patterson, a highly respectable lady, and was lodged in the jail here. Early this morning an armed mob of over 200 men went to the jail and compelled the janitor to give up the keys to them: They then dragged Blocker from his cell, and hanged him to a tree.

Accident or Attempted Suicide.

AUSTIN, Tex., March 7.—A. W. Bunson, of this city, a prominent real estate agent, while crossing the bridge over the Colorado river yesterday evening either fell or jumped from his carriage to the river below, a distance of forty feet and was picked up in an unconscious state. Opinions differ as to whether it was an accident or an attempted suicide. Mr. Bunson's injuries are thought to be fatal.

Sensation Among Presbyterians.

SALEM, Ill., March 7.—Rev. D. Depenbrock, a Cumberland Presbyterian minister, has been arrested and placed under bond on an indictment charging him with fraud and misrepresentation in obtaining a renewal of insurance policies in the Rockford Insurance company, of Rockford, Ill. It has created a sensation in the community, where he has been laboring for many years past.

Killen-McDonald Fight.

MINNEAPOLIS, March 7.—About three hundred people saw the Killen-McDonald fight at Washington Rink. Killen knocked McDonald out in the first round. A few body blows were exchanged, when Killen landed an upper cut, knocking McDonald down. Hearse before time was called, and Killen hit him again under the jugular, knocking him completely out.

A Convict's Rights.

ST. LOUIS, March 7.—The state supreme court has decided that a convict can not be taken from the penitentiary to testify in a court, but that his testimony may be taken in the form of a deposition. This will prevent the attorneys of Messenger Fotheringham from bringing Jim Cummins alias Fred Wittrock, to testify personally in his behalf.

A New Law in Maine.

AUGUSTA, Me., March 7.—The house today passed without debate and with slight amendments, a fortnightly payment bill. It will receive one or two slight amendments in the senate in respects to its application.

MONTREAL, March 7.—About a year ago an attempt was made to deprecate the Canadian Pacific securities by sending out damaging reports from Ottawa, Montreal and Toronto simultaneously. The detectives have been on the look out ever since, and just discovered a new conspiracy with a similar object. It is understood that a number of prominent Canadians are implicated and that some surprising arrests are to be made.

Herolusm Rewarded.

HARWICH, Mass., March 7.—On December 6, 1885, the schooner Grecian during a heavy storm came ashore about one mile south of Chatham Fights and the crew with much difficulty were saved. Congress has presented a solid silver medal to George W. Bloomer for his assistance in rescuing five persons from the wreck.

Charley Heiser, a Pittsburg umbrella mender, has been lifted from poverty to wealth by the death of a relative in Germany, who left him \$68,000. Heiser was the private dispatch carrier of President Lincoln during the war.

"No Phisic, Sir, Mine!"

A good story comes from a boys' boarding-school in "Jersey." The diet was monotonous and constipating, and the learned Principal decided to introduce some old-style physic in the apple-sauce, and await the results. One bright lad, the smartest in school, discovered the secret mine in his sauce, and pushing back his plate, shouted to the pedagogue, "No phisic, sir, in mine." My dad told me to use nuthin' but Dr. Pierce's 'Pleasant Purgative Pellets,' and they are doing their duty like a charm! They are anti-bilious, and purely vegetable.

CHICAGO MARKETS.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

MONDAY EVENING, MARCH 7, 1887

River News.

Still falling here and all points above. The Handy No. 2 resumed her trade this morning.

Due up to-night: Bostona, Pomeroy, and Scotia, Pittsburg, 12 o'clock. Due down: Sherry and Boone, this afternoon, Bonanza, 5:30 this evening, and Big Sandy, midnight.

SWEETEST green and Japan teas—Calhoun's.

OLD-TIME sugar-house molasses, cheap at G. W. Geisel's.

THE finest new crop malasses in the city, at G. W. Geisel's.

BORN—Sunday, March 6, to the wife of Waller Bullock, a son.

BORN—Monday, March 7, to the wife of Albert Huff, a daughter.

MRS. PAYNE, an old citizen of Aberdeen, died this morning of consumption.

CHAS. W. COBB and Louisa Clutter, both of this county were married this morning.

CHUNN & SCHLITZ have decided to remain at Wichita, and have sent for their tools.

WHARFMASTER PHISTER says the weather signals have gone where the "woodbine twine.".

WILLIE AMBROSE, who has been ill for the past week or so, was better yesterday and is improving.

THE ice factory is now running on full time, the repairs having been completed Saturday afternoon.

MRS. EVA REED, of the Fifth ward, has been ill for some time, but her friends will be glad to learn that she is recovering.

THE grist and saw mill at Pleasant Valley, Nicholas County, was burned last evening. Loss estimated at \$20,000. No insurance.

THE revival in the Walnut Street Baptist Church in Louisville, conducted by Rev. Fred Hale, closed with ninety-three additions to the membership.

JAMES CAMPBELL, a man of considerable wealth, was sentenced to one year in the penitentiary at Owingsville the other day, for attempting to kill James W. Simmons.

CHARLES DOWNING, President of the Kenton Station Turnpike Company, advertises elsewhere for proposals to build two miles of pike. Plans and specifications may be seen at County Clerk's office.

ATTENTION is called to the advertisement of Henry Ort in this issue. Parties in need of any thing in the furniture line should call on him, Second street, east of Market. Newest styles always on hand, and at uniformly low prices.

SOME unknown party or parties broke four glass out of one of the gas lamps on Second street extension, Saturday night. It is to be hoped the guilty parties will be found out, and receive a punishment that will put a stop to such rowdiness hereafter.

THERE is a correspondent down at Augusta who bids fair to outlive the sensational news-gatherer, of Flemingsburg. He has already gotten off the "snake story" and the "wild animal chestnut," and the public should prepare itself for something more startling.

THE Ladies' Mite Society of the Central Presbyterian Church will give an entertainment next Thursday evening at the residence of Mrs. Mary Caldwell in the Fifth ward. Music, recitations, and readings, after which refreshments will be served. All are invited. Admission 25 cents.

THOMAS LUMAN, of the Fifth ward, met with a painful accident Saturday afternoon. While at work at Collins, Rudy & Co's saw and planing mills, his right hand was caught in some of the machinery and badly mangled and bruised. He is rather unfortunate, as he lost some of the fingers on his left hand while at work in the mill a year or so ago.

COMMONWEALTH'S ATTORNEY JAMES H. SALLER returned yesterday from Greenup, where he had been the past week attending Circuit Court. The criminal docket has all be disposed of. There were seven or eight convictions and fines for misdemeanors. The most important criminal case tried was that of James Moore, charged with killing Robt. Story, December 25, 1885. The jury returned a verdict of guilty and fixed his punishment at six years in the penitentiary.

SERIOUS CHARGE.

Mary Louisa Craig Accused of Infanticide—Her Sad Story.

The dead body of a white female infant was found one day last week in the neighborhood of Fairview, Fleming Co. Fairview lies near the Mason County line, between Sardis and Mayslick. Dogs were devouring the remains when discovered. An inquest was held, the Coroner's jury finding that the infant had come to its death from some cause unknown to them.

Last Saturday a warrant was issued, charging Mary Louisa Craig with the crime. It was placed in the hands of William Bland, Constable of Sardis precinct, who arrested the accused and brought her to this city, where she was placed in jail to await her examining trial, which is set for to-morrow at 10 o'clock. A BULLETIN representative, in company with County Attorney C. D. Newell, saw her at the jail yesterday. She talked very glibly, showing but little hesitation in giving her story.

"I was born," said she, "in Wayne County, Ind. I am twenty-eight years of age, and have lived in this State for about twenty-one years. Most of my kinsfolk live in the vicinity of Mt. Olivet. My parents' home, now, is at Powersville, Bracken County, but I understand they are out in Indiana, at present, on a visit. I am not married. I have one child, though, five years of age, whom my father and mother are raising."

"Where have you lived lately?" "With a family between Mayslick and Sardis. I have lived with them since last blackberry time. Before that I lived with a family out near Fern Leaf. About this charge against me, I didn't know anything about it until Saturday morning when the officer came and arrested me. I told the officer I was willing to come along with him. I want a trial to-morrow if I can get one. I'm not guilty. The child was found about three miles away from where I live, and I haven't been away from home for several weeks. I'm a member of church, and whenever I've gone to preaching the little children where I live, who are ten or twelve years of age, have always gone with me."

"Were you ever before charged with a crime of this kind?"

"Yes, about three years ago, out near Mt. Olivet. I was not guilty, though. I was tried in the Circuit or Criminal Court at that place, and the jury acquitted me."

The above is not the exact language used by Miss Craig, but it is the substance of her story. She did not seem much concerned about her condition, and was confident of being released whenever her examining trial came off. The charge will be investigated before Judge Coons to-morrow, as stated above.

A Great Actress.

M'lie Rhea, one of the most distinguished artists who has ever visited this country, will give her first and perhaps her only performance in this place on Wednesday evening, March 9th. Her manager is at considerable expense in bringing this attraction here, and it is to be hoped that theatre-goers will appreciate his efforts in their behalf. M'lie Rhea certainly ought to, and undoubtedly will, draw a crowded house. The entire Southern press is most enthusiastic over the lady's performances, and she has been playing to a succession of crowded houses, while people of the most noted social position have lavished elegant entertainments of every description on her. She will be seen here in one of the great successes of her extensive repertoire, a magnificent comedy entitled, "The Widow," which was played in Paris for four hundred consecutive nights. It may be interesting to the ladies to mention the fact that M'lie Rhea is regarded as one of the most elaborate dressers on the stage. Some idea of the extent of her wardrobe may be had when it is known that she carries no less than seventy-five Parisian dresses. Those to be worn in "The Widow" consist of four superb toilets, made especially for this play by Worth, the famous man dressmaker, of Paris.

Behind the Bars.

A visit to the county jail yesterday found nine prisoners "behind the bars." Some are awaiting trial, and the rest have already had their trial and are serving out the sentence of the court. There are four whites and five negroes. Mary Louisa Craig is the only female in the lot. As will be seen elsewhere, she is awaiting trial on the charge of infanticide.

John S. Thompson is awaiting trial for obtaining money under false pretenses. His home is in Boyd County. He sold a pair of mules to James & Wells, and W. H. Ambrose a few months ago, that belonged to a party of court resulted in a hung jury. He was busy writing a letter yesterday when the BULLETIN scribe approached him, and said he was confident he would soon be released. Thompson has a family in Boyd.

William Workman is here for safe

keeping. He is wanted at Mt. Olivet, charged with taking part in a tragedy near there last fall, in which a man named Sparks, one of the prominent citizens of Robertson County, was assassinated. Workman would say but little, and replied to but few questions. He received a load of shot in the face and head the night of the tragedy, and has lost one of his eyes from the wounds. His trial will come up at Mt. Olivet before long.

W. H. Roden is a middle-aged white man. He was sent in by Police Judge Howard, of Mayslick, to serve out a judgment of \$30 and ten days imprisonment.

Mart Edwards is the other white prisoner. His home is here in town. He pleaded guilty to petit larceny at the last Circuit Court and was sentenced to sixty days imprisonment. He was in jail about twenty days before his trial came up, and he thinks eighty days a little too long for taking a few pieces of clothing that were almost worthless. He thought the court was too hard on him, but said he would know who his friends were hereafter, and that this would teach him a lesson.

Doc Small and Frank Bell, both colored, hail from Mayslick. Small is serving a sentence for carrying concealed a deadly weapon, and Bell pleaded guilty before Judge Coons last week, to petit larceny—taking a turkey—and was given thirty days in jail.

Peter Jones, a young colored man, let his fondness for turkey lead him astray not long ago. He was caught and was sent up for thirty days.

Henry Williams, colored, is awaiting trial for cutting Hord Loughridge with intent to kill, at a dance on the Fleming pike several weeks ago.

REV. E. L. POWELL expects to leave next Saturday to assist Dr. Hobbs, of Louisville, in a protracted meeting at that place.

CAPTAIN J. W. SHOWALTER, formerly of the Dover neighborhood, and Miss Nellie L. Marshall were married at Denerail, Fayette County, last week. The groom is a son of Benoni Showalter, and is a graduate of Kentucky Military Institute.

MRS. DAVID WILSON, of North Middletown, attempted to commit suicide last night by shooting herself in the left breast. The ball entered near the heart, and inflicted a wound that is very dangerous, but not necessarily fatal. The rash deed is attributed to domestic unhappiness.

W. S. FORD was arrested yesterday and lodged in the station house by Deputy Marshal W. B. Dawson. Ford lives in the Fifth ward, and during a family quarrel yesterday morning, he struck his wife over the head with a poker. The wound is pronounced a serious one by Dr. McNutt, who was called in and who is attending to the case.

We stated some time ago that a gate had been patented by Mr. John B. Holton, of Washington. The Scientific American says: "The main feature of this improvement consists in a right-angular hinge rod, in connection with a special construction and combination of parts whereby the gate is braced, adjusted for taking up sag, and attached to the pivot post, the invention pertaining especially to farm gates."

MISS L. ELLA LINGO, an artist who has been engaged for a number of years as a teacher of fine art and the principal of the art departments at the colleges for young ladies at Richmond and Scio, O., is in town, stopping for a few days at Mrs. Perrie's boarding house. She gives lessons in drawing, sketches from nature, marine, landscape, portrait and fruit and flower painting, work in crayon, oil, India ink and water colors, and in embroidery, and paper flower and fine needle work. Miss Lingo is highly recommended by the newspapers of north-eastern Ohio, as a landscape and scenery artist and as being thoroughly proficient in art needle work, and as an art teacher. Some specimens of her work may be seen in the show window at Hildreth & Darnall's drygoods store, Second street. dlt

A TELEGRAM received here yesterday, by his relatives, announced the death of Michael McCormick, at the home of his daughter, Mrs. R. H. Wolfe, in Georgetown, Ky. Mr. McCormick had been engaged in the merchant tailoring business at that place for some time. Although a sufferer from Bright's Disease for the past year, he had enjoyed his usual health until Thursday-evening last, when he was paralyzed while at work in his store. The disease, had made such headway that he never rallied from this last stroke. He was about sixty-three years of age, and leaves a wife and seven children—three daughters, all married, and four sons—to mourn his loss. He was a member of Father Mathew Total Abstinence Society, Joseph Heiser Post, G. A. R., and the Knights of Labor. His remains will be brought here to-night. Funeral services Wednesday afternoon at 2 o'clock.

Attention, Farmers.

Seed oats and corn, at Foster & Carr's mill. d&w2t

The protracted meeting in the Methodist Episcopal Church is still in progress. Preaching this evening at 7:15 o'clock by Rev. C. W. Williamson, of Covington. All are invited.

A CORRESPONDENT of the Courier-Journal says that Wm. Barry, a native of Kentucky, aged about 51 years, committed suicide at Madeira, Fresno Co., Cal., by taking morphine. He was a lawyer, and the news of his death is given circulation in order that the relatives of the deceased may learn of his fate.

YESTERDAY was the annual Thanksgiving Day of the colored Oddfellows. Star Lodge, of this city, observed the day by a public parade in the afternoon, winding up at the M. E. Church, Fourth street, where Rev. Mr. Paris, of Louisville, delivered a discourse. The Lodge numbers about sixty members, and is in a prosperous condition. The First Regiment Band furnished some excellent music for the parade.

NAT GEIS, Tim Archdeacon, "Red" Costello, Dennis Crow and John Crow were fined \$5.00 each and costs by Mayor Pearce this morning for drunkenness. They belonged to the "Presley Gang," and got "on the town" Saturday night. When Marshal Heflin and Deputy Guilfoyle attempted to arrest them, he was struck on the head by one of the crowd with a brick, inflicting a slight wound over the eye. The officers succeeded in landing them all behind the bars.

"Hello!" we heard one man say to another the other day. "I didn't know you at first; why! you look ten years younger than you did when I saw you last." "I feel ten years younger," was the reply. "You know I used to be under the weather all the time and gave up expecting to be any better. The doctor said I had consumption. I was terribly weak, had night-sweats, cough, no appetite, and lost flesh. I saw Dr. Pierce's 'Golden Medical Discovery' advertised, and thought it would do no harm if it did no good. It has cured me. I am a new man because I am a well one."

Removal.

Dr. G. M. Williams has removed his dental office to building on Third street, adjoining Dr. Shackelford's office.

New Drug Store.

W. C. Shackelford has opened a new drug store in "Cox Building," corner Third and Market. Pure drugs. Fine old wines and liquors for medical purposes. Toilet articles in great variety.

Notice.

The members of Father Mathew Total Abstinence Society are requested to meet this evening at 7 o'clock sharp in their hall, on Limestone street, to make arrangements to attend the funeral of Michael McCormick.

WM. COLE, President.

Personal.

Colonel Rees Dobyns, of Cincinnati, was in town this morning.

W. H. Wadsworth, Jr., returned Saturday night from a trip to Washington, D. C.

Mrs. Boulton and son, of Columbia, Mo., are visiting the family of Robert Perrine, near Tuckahoe.

How Women Would Vote.

Were women allowed to vote, every one in the land who has used Dr. Pierce's "Favorite Prescription" would vote it to be an unfailing remedy for the disease peculiar to her sex. By druggists.

ADVERTISERS send for our Select List of Local Newspapers. Geo. F. Rowell & Co., 10, Spruce street, N. Y.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every opportunity."

Dr. King's New Discovery for consumption is guaranteed to cure coughs, colds, bronchitis, Asthma, croup and every affection of throat, chest and lungs. Trial bottles free (Large size \$1.00) at the Drug Stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

TROUBLES OF STRIKERS.

THE STRIKE ON THE SAN FRANCISCO CABLE ROAD DECLARED OFF.

A Quarrel Among the Strikers Over a "Secret Fund" Is What Caused the Failure. Coke Workers Quit Work—Miners Out in Nova Scotia—Other Labor News.

SAN FRANCISCO, March 7.—The strike on the cable roads, which has been going on for several months, has ended. Last week there was a big benefit performance to aid the strikers, which netted several thousand dollars. Shortly after the strike began the strikers commenced running a line of omnibuses to compete with the cable roads. They did not pay and have accumulated a couple of thousand dollars of debts. The managers of this line thought that the money raised at the benefits should be given to them, while the old employees of the cable lines, who have been idle so long, thought it ought to be divided among them. On this question a quarrel arose, and the strike has been declared ended; but there were other reasons which hastened the end.

Large sums of money have been put into a so-called "secret fund" concerning the disposition of which nothing was made public. It is openly said now that this fund was used for the purchase of dynamite. The arrest of the two dynamiters a couple of weeks ago have been no more explosions since then, and though the strikers deny complicity with the use of dynamite, there can be no question that the action of the police in ferreting out the two dynamiters was a death blow to the strike. The men who took the strikers' places on the roads are being paid the wages which were demanded by the strikers when they went out.

Coke Workers Quit Work.

PITTSBURGH, Pa., March 7.—Five hundred coke workers, employed at the Jintown and Sterling works of J. M. Schoonmaker & Co., on the Hickman Run branch of the Baltimore & Ohio railway, have gone out on a strike. Several days ago the firm temporarily suspended two carpenters, not having present need of their services. James Dumphy, an official in the Miners and Laborers Amalgamated association, hearing of the suspension of the carpenters ordered the men to quit work. No notification was given to the firm, no demand made and the strikers refuse to listen to the firm's explanation. Six hundred and seventy-five tons of coke are burning in the ovens and will be a total loss. There is no indication of the men returning to work. Several large furnaces in this city received their supply of coke from the Jintown and Sterling works. Should the strike continue for a few days these blast furnaces will have to be banked. In that event over 2,000 men will be thrown out of employment.

N. Y., P. & O. Brakemen Strike.

CLEVELAND, O., March 7.—The strike on the Mahoning division of the New York, Pennsylvania & Ohio railroad promises to assume a more serious aspect than was at first thought probable. Although the yardmen are the only ones directly interested, the suspension of their work throws everyone along the line out of work, and only those engaged in the passenger traffic are at present doing anything.

To-day the yards in this city are crowded with cars and locomotives all at a standstill and this is the case all along the line between here and Youngstown. The strikers do not allow the locomotives of other corporations to run over the N. Y., P. & O. tracks and many manufacturers are already suffering for want of coal, because of their inability to haul their coal cars off the main tracks. Switchmen, roadmen and conductors are backing the strikers.

Labor Parade.

BOSTON, March 7.—A tremendous crowd of sight-seers and a small procession is an adequate description of the celebration in honor of the ex-employees of the Cambridge railroad. Three local assemblies, represented by 700 men and a band, were in line. Occasional pyrotechnic displays were made along the route. There was no disturbance, directly connected with the parade. At 11:30 a new driver of a South Boston car got upon the wrong track in Washington street, and his car was run into and smashed by a Metropolitan car. The crowd jeered the driver, but help him out his difficulty.

The Lonsheoremen's assembly and the freight handlers met and resolved not to use the Cambridge and South Boston cars until the strikers were settled.

The Coal Strike in Nova Scotia.

HALIFAX, N. S., March 7.—The strike in the Pictou collieries is assuming a more serious aspect and the scarcity of coal is interfering more and more each day with local manufacturers. The workmen in three mines have been out for several weeks and it is reported that the Drummond colliery will stop work on Monday. A conference was held between a committee of miners and Manager Boole, but no satisfactory agreement was reached. The price of coal is rising rapidly. Sydney now sells for \$1 per chaldron higher than a week ago.

Knights of Labor Jubilant.

QUEBEC, March 7.—The Knights of Labor here are jubilant over the position taken by Cardinal Gibbons in the propaganda, and say that the mandament issued by Cardinal Taschereau will be withdrawn on his return, as it is stated on the best authority that his eminence, before leaving for Rome, said that he would not offer any serious opposition in the consistory, and would be only too happy to make it known should it be favorably passed before the council.

Loss to the Shoe Industry.

BOSTON, March 7.—The Advertiser, in answer to the question: "What has been the loss to the Massachusetts shoe industry by the removal of factories that have been driven away by the action of strikers?" says that it can be accurately shown and proven that the annual product of these factories is now \$9,425,000 and their total products since they were removed has been nearly \$42,800,000.

Ingrain Carpet Weavers.

PHILADELPHIA, March 7.—The lower loom ingrain carpet weavers have demanded an additional one cent per yard for weaving. The manufacturers say they cannot pay it, and it is expected that on Monday over three thousand weavers will quit work.

COHOES, N. Y., March 7.—Cotton mills operatives here, numbering 5,000, have, through a committee requested of the Harmony Mills company an increase of from 10 to 20 per cent. in wages.

BRIEF MENTION.

News of the Day Compressed for the Hasty Peruser.

Very Rev. Beck, superior general of the Jesuit order, is dead at Rome.

Walter Jack, a negro desperado of Alabama, will be hanged at Jasper, April 15.

Oyler & Co., St. Louis, agricultural implement makers, have failed. Liabilities, \$75,000.

The Canadian Pacific road has arranged for a regular line of transpacific steamers to and from China.

Mr. and Mrs. J. C. Myers, Oneida, N. Y., have been convicted of murder in the first degree for killing their child.

The czar has announced a repudiation of the Imperial alliance by stating his freedom of action henceforth in European affairs.

Levi Brooks, a farmer near Lancaster, Pa., threatened a relative, Mary Gashert, with a knife, when the woman shot him dead.

The supposed wholesale poisoning by canned fruit of the pupils at St. Joseph's academy, St. Louis, turns out to have been a case of gluttony.

Ten of the leading citizens of Harris county, West Virginia, are on trial for horse-whipping John Elliott for alleged abuse of his step-daughter.

Paul King, cashier of the Farmers' National bank, of Cynthia, Ky., suicided by firing a pistol ball through his right temple. He was in poor health.

Mrs. Sarah L. Johnson and her six-year-old adopted daughter were burned alive in a dwelling on Eighth avenue, New York. They were colored persons.

At Logansport, Ind., Ollie Butcher, thirteen years old, committed suicide by shooting himself through the temple. No reason for the deed can be ascertained.

John Carr, an employee of the American Express company, at Cleveland, O., walked into a saloon, took a drink and immediately shot himself through the heart.

The flour trade is exercised over a London project to establish in Rio Janeiro a \$2,000,000 plant to make flour from grain from the Argentine Republic and Chili.

Mother Angela, a widely known Catholic woman, died at St. Mary's, South Bend, Ind. She established many hospitals during the war, and founded several female academies.

Albert Vick and Frank McCoy, of Paris, Ill., quarreled, and the former afterward found McCoy in a stable and deliberately put two bullets into him. The victim will die.

John Hanley, who was stealing a ride on an I. B. & W. train, was horribly mangled on a bridge near Findlay, O., and pitched into Eagle creek. He died in a very few minutes.

Senator Jones, of Florida, announces that he will return to his constituents, explain his absence from Washington, reveal something of a sensational character and ask for a re-election.

River points below Memphis have been started. Over a dozen men have been killed this year. The crimes are attributed to river pirates, as all the victims were laborers set to watch goods on the levee.

Governor Wilson, of West Virginia, has vetoed bills for the bridging of the Kanawha, Sandy and Tug rivers. The governor has announced that he will call an extra session of the legislature about April 20.

In Ohio township, Crawford county, Indiana, Thomas Bird, aged seventeen, fired a load of buckshot into his thirteen-year-old sister, because she refused to disobey her mother. Her wounds will probably prove fatal.

Mexican troops invaded Nogales, Ariz., and demanded the release of a Mexican prisoner. The sheriff and his officials gave battle and repulsed the Mexicans, killing one. Further trouble is apprehended, and United States troops have been sent for.

FINANCE AND COMMERCE.

Quotations of the Money Stock, Produce and Cattle Markets for March 5.

New York.—Money 4 1/2 per cent. Exchange steady. Governments steady.

Currency notes, 12 1/2 bid; four coupons, 12 1/2; four-and-a-half 18 1/2 bid.

The stock market opened dull and featureless, but during the first thirty minutes on buying of Richmond & West Point and Lackawanna prices advanced to 1 1/2 to 1 3/4 per cent. After the first call the market settled into a listless state and continued so up to noon when on publication of the bank statement, showing a reduction in the reserves of over two million and a quarter, there was a pressure to sell under which the advance was lost. The lowest prices of the day are now current.

GOOCH'S MEXICAN SYRUP

OF WILD CHERRY, TAR, GLYCERINE, ETC.
WILL CURE CONSUMPTION,
and is the best remedy for the cure of all affections of the Throat, Lungs and Chest, such as Consumption, Colds, Coughs, Asthma, Bronchitis, Whooping Cough, Croup, Pain or Oppression of the Chest, Hoarseness, Spitting of Blood, and all Pulmonary Diseases.

CONSUMPTION CAN BE CURED!

WE have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. Tuberculous matter is nothing more than nourishment imperfectly organized. Now if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what this Syrup does. It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It thus controls Cough, Night Sweats and all other symptoms of Consumption. Consumption is one of the most loathsome and terrible of all diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine, but a new era in the management of pulmonary diseases seems to be dawning upon the scientific medical world, and, since many distinguished physicians have acknowledged that consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its result to bring back health to their poor weakened frames, and joy to the hearts of their friends.

Consumptives, because all other things fail, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with threatening voice, menacing the health and existence of a vital organ; so commence at once at the first indication of a cough. TRY IT, you who suffer, and be convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. This remedy is in the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 cents? I do, make one more trial. Is not your life indeed worth one more trial? Test the truth of our words. I only by one single bottle; and never give way to despair till you are certain there is no hope. It has cured thousands, and it will cure you. As we would plead with a friend to save him from taking his own life, we plead with you to save yourself from a premature grave. We positively guarantee a perceptible and untimely improvement when the medicine is faithfully and persistently used.

PREPARED BY THE CINCINNATI DRUG AND CHEMICAL CO., 54 Main St., Cincinnati, Ohio.

FOR SALE BY ALL DRUGGISTS.

If not on sale at nearest dealer, will send two bottles, post paid, on receipt of \$1.00.

RUNYON'S SLAUGHTER SALE,

Application for rates to clubs should be made only to the office of the company in New Orleans.

For further information write clearly, giving full address. POSTAL NOTES, Express Money Orders, or New York Exchange in ordinary letter. Currency by express (at our expense) addressed

M. A. DAUPHIN, New Orleans, La.,
Or M. A. DAUPHIN, Washington, D. C.
Address Registered Letters to
NEW ORLEANS NATIONAL BANK,
New Orleans, La.

Remember

that the presence of Generals Beauregard and Early, who are in charge of the drawings, is a guarantee of absolute fairness and integrity, that the chances are all equal, and that no one can possibly divine what numbers will draw a Prize. All parties, therefore, advertising to guarantee Prizes in this Lottery, or holding out any other impossible inducements, are swindlers, and only aim to deceive and defraud the unwary.
